WICHITA FALLS 2018 RANCH & FARM EXPO

Make plans to attend the 9th annual Wichita Falls Ranch & Farm Expo March 7-8, 2018 at 111 N. Burnett at the JS Bridwell Agricultural Center which is part of the MPEC in Wichita Falls. The show hours are from 9 a.m.-5 p.m. March 7 and 9 a.m.-4 p.m. March 8.

Many exciting exhibits and activities are planned this year. Attendees also will have the opportunity to visit with more than 400 vendors from 27 states and Australia, in more than 175,000 square feet of exhibit space and not the mention more than \$5,000 in prizes and giveaways.

"The show staff is excited about the new and exciting activities and seminars that are coming to the 2018 Wichita Falls Ranch & Farm Expo.

It will be the premier livestock and farm equipment show in the U.S., but that's not all, there is something for everyone" says Darren Dale, show owner. Admission and parking are free to the public.

The staff is excited to welcome back training demonstrations with clinician J.D. Wing both days of the show. J.D. is the head horse trainer for the Tee Cross Ranches.

The famous Tee Cross brand was the first brand registered in the State of Colorado and is synonymous with quality in both its' quarter horse and cattle operations. Robert C. "Bob" Norris has a rich and prestigious history in the cattle, cutting and quarter horse world.

The Tee Cross Ranches were nominated for AQHA's Best Remuda award. This award recognizes ranching operations that have produced their own

breeding program of outstanding quarter horses used not only on the ranch, but having produced quality horses used in competition around the world.

The horse training demonstrations are brought to you by Bobby Norris Real Estate and Attebury Grain.

A live production bull and working ranch horse sale will be this year. This event is brought to you by Quality Implement Co.

There will be 75-plus lots of high quality breeding bulls selling. The production bull sale will be at 1 p.m. on March 8 in the JS Bridwell arena. Bulls will be on hand both days to view starting at 12 noon on March 7.

Along with the bull sale this year will be a nice selection of working ranch

 PERFORMANCE PLUS DEALER 

Maximize Your Rate of Gain

Pat Robertson holds many titles! A Nebraska native. A savvy farmer/rancher/cattleman/businessman. A loyal man devoted to his family.

Like most cattlemen, Pat has strived to achieve the ultimate. Higher rate of gain percentages, reduced mortality, healthier cow/calf pairs. What has been the formula to his success? Reduce stress, healthier grass, maintaining native grass at its ultimate potential.

"Our best lessons come from our mistakes". This wisdom is what has brought success to Pat. Through trial and error, Pat has created a system that has proven to be successful and allows his grasslands sustainability for future generations. As Pat systematically rotates his cattle to maximize his native grassland, he also rotates the location of his Lewis Cattle Oiler. By attaching the water source, to the oiler, Pat then heads to the next grassland. The cattle follow the oiler, and their water, to their next grazing paradise! These cattle KNOW that by following the oiler, they are getting greener pastures and remaining stress free. By the continued use of the oiler, Pat's cattle continue to have virtually zero fly issues.

Pat has tried many other methods in fly control. All of these methods have been too costly or simply ineffective. Once he stumbled upon the Lewis Cattle Oiler, he found that he had finally found his answer! By reducing stress from flies, his cattle are calm and happy! By minimizing stress (due to fly infestation), and maximizing grass rotation practices, Pat has created a package to successfully increase the maximum rate of gain in the shortest amount of time.

"Life is about always learning" are the wise words of Pat Robertson. "But when we find a solution that works, stick with it and make improvements along the way!"

The First Hydraulic Corral and still the Largest!

Starting at \$11,300

Rawhide Original Standard Size

Rawhide Processor

by John McDonald

- Pull on highway at speed limit.
- Fits through any gate your pickup will.
- Stable on uneven terrain.
- Transport wheels are permanent, no sliding off the axles and rolling out of the way.
- Wheels on each panel and electric over hydraulic jack eliminates lifting—saves time.
- Permanent sheeted adjustable alley.
- Frame gates for sorting.

3 Sizes Available!
